

I would like to introduce you to the Elaine Brennan Skin Renewal Peeling System which is available for use by doctors, plastic surgeons, medical spas and qualified experienced estheticians.

As you may know, Elaine Brennan has spent over 50 years in the skin care industry specializing in advanced paramedical skin treatments and was the pioneer of skin peeling in South Africa over 40 years ago. Elaine retired in September 2011 from her West Annapolis Clinic which she started in 1997.

The renowned Elaine Brennan Skin Renewal peeling system is a truly unique and exclusive cosmetic peeling treatment that has been tried and tested for over 30 years. It has proved to be the most effective way to a clear, healthy, beautiful, young looking and blemish free skin. There is no peeling which rivals its safety and at the same time, produces such excellent results.

Why the Elaine Brennan Skin Renewal Peeling System?

The treatment produces a superior peeling that is totally safe and effective and is therefore suitable for skins of all ages and color. The peeling is modified for use on skins of color, rendering the best possible results. Rejuvenation and dramatic improvement in the color, texture and elasticity of the skin is achieved. The peeling can be applied to selected areas of the body as well as the face, neck and eyelids.

The special characteristic of this exfoliation technique is that no destruction of the living cells is involved. Only dead cell layers are detached from the skin which remains absolutely intact. Resorcinol is one of the very few substances which have this property. Many other peelings in high concentration can destroy the cells in the deeper layers of the epidermis which can damage the delicate skin tissues. There is no limit to the number of peelings that a skin will tolerate as each peeling stimulates re growth. For a beautiful, elastic and young looking skin, the treatment is recommended every one to two years for skins between the ages of 21 to 30 and once a year thereafter.

The peeling is in a cream form, ensuring easy and uniform application. The Elaine Brennan Skin Renewal Peeling System for rejuvenation and selected skin problems is often preferable to Glycolic Acid Peels and Laser Resurfacing and in many cases more effective.

The Advantage Comparison

	<u>E.B. Skin Renewal Peeling System</u>	<u>Glycolic Acid</u>	<u>Laser Resurface</u>
Wrinkles:	Excellent	Fair (multiple peels)	Excellent

Melasma:	Excellent	Fair	Not recommended
Scars:	Very good	Not effective	Very good
Laxity:	Excellent	Not effective	Excellent
Enlarged pores:	Excellent	Not effective	Not effective
Non-facial skin:	Excellent	Not effective	Not recommended

	<u>E.A. Skin Renewal Peeling System</u>	<u>Other Procedures</u>
Safety:	Maximum	Average
Skin types:	All	Restrictions
Time at home:	0-7 days	2 or more weeks
Recovery:	7-10 days	4-6 weeks
End Result:	Good	Good/Fair
Non-facial skin:	Yes	Restrictions
Procedure repeats:	Yes	Variable

The Elaine Brennan Skin Renewal System is especially beneficial for treating:

- Superficial facial lines, fine wrinkling around the eyes, blemishes and superficial scarring.
- Dryness, Sensitivity, Psoriasis and Rosacea.
- Acne, Oiliness, Blackhead, Closed Comedones (Whiteheads) and Rough Skin.
- Pigmentation marks and special technique allows for the removal of freckles.
- Sun damage and Poor Quality Skin.
